Athletes' Commission 2013 – 2016 Deadline for the candidatures of AER + ACRO disciplines

Dear President,
Dear Member of the Executive Committee,

In order to elect the new members of the Athletes' Commission, for the cycle 2013 – 2016, the FIG Executive Committee will submit the following procedure to the Congress (Art. No. 22 of the FIG Statutes):

“With regard to Olympic disciplines, the elections shall be held during the World Championships on the year following the Olympic Games with entry into force on January 1st of the “intermediary” year.

With regard to AER and ACRO, the elections shall be held during the World Championships on the Olympic year with entry into force on January 1st the year following the OG. Should it come out during the statutory elections of the AER and ACRO Technical Committees that a Federation already has a representative at the Athletes' Commission plus a member elected in the same TC, the said Federation shall have to decide whether it shall be represented in the Athletes' Commission or in the TC concerned. Should it decide in favour of the latter, the next athlete elected shall join the Athletes' Commission.”

Transitory paragraph:

“This text was agreed upon by the EC during its meeting in February 2012. It shall apply to the 2012 AER and ACRO Championships already being understood that the modification agreed by the 2010 Congress cannot apply since there are no AER or ACRO World Championships in the year following the OG. This change shall of course be submitted to the 2012 Congress for approval.”

The elections will be held according to the articles No. 11.15.2 and No. 22 (as updated here-above) of our Statutes, based on the candidatures received in due time. The candidates must be proposed by their own Federation, and a Federation cannot be represented more than once within this commission. Please also refer to the information that will be mentioned in the work plans of the concerned World Championships.

As mentioned previously this is a transitory procedure, which will have to be ratified by the FIG Congress at the time of its next meeting that will take place in October 2012 in Cancun (MEX).

Deadline for the AER + ACRO candidatures: 11th April 2012 at midnight (Swiss time)

Yours Sincerely,

André Gueisbuhler
FIG Secretary General
